Hi. Welcome to our Advisor Section.

Whether you are looking to get funds for your capital requirement or funds against your property, our experts are here to guide you.

Please enter the below details to start conversation with one of our experts.

Customer Name

Customer Mobile Number

RO / RM Name

RO / RM CRN

Branch CRN

Name can not be left blank

Start Conversation

You will receive our replies on the same chat, so please do turn on your Notifications, and keep checking this page regularly.

III

Compliant with RBI and IRDAI regulation

eKYC with Aadhaar and NSDL (OTP or Offline)

Real Time Two-way Recording

Capture Photo

Capture clear image of PAN Card

Live Location

Face Comparison using AI

Randomize Questions

Concurrent Audit

Hosted on RE domain

Open for Security Audit

End to end encryption

Three ways to do Video KYC

Continuous Workflow

Customer can complete the Video KYC immediately after filling the account opening form

Independent Weblink

Customer can access a link on the RE's website, enter details and do a Video KYC

RM / Agent Assisted

Agent can assist a Customer to fill a form online and get connected directly

Customer fills the form on RE Website or Mobile App

or

Customer initiates the journey through a Independent Weblink

Customer completes eKYC

Location Page:
RE system will check the customer's location, and if in India will proceed further

Enter Employee number

Depending on the Workflow, Customer may be asked to enter Employee ID for Agent Assisted workflow

Video KYC

Customer starts the Video KYC Journey

Customer is shown an Instructions page

Customer gets passed to a Round Robin system to get connected to an Agent

The Customer gets connected to an Agent on Text Chat. Agent gets a Notification for a new Customer

The RE Agent will initiate a Two Way Video Call with the Customer, which the Customer has to accept

Agent will get some random details from the form, to ask the Customer, like Name, Address, Date of Birth etc

Agent will take a Screenshot of the Customer's face from the Live Video

Agent will take a screenshot of the Customer showing the PAN Card and compare it to the PAN number entered in the form

Agent will ask the Customer to sign on a blank piece of paper, and take a screenshot of it

Agent will compare the Customer photo with the photo obtained from UIDAI using a Face Comparison API, and checks the % match

Agent will close the KYC as Successful or Rejected, depending on the verification points

Complete interaction is recorded on video, and the documents are available on a single Customer KYC Page

All Successful KYCs get added to an Auditor Bucket and get passed onto an Audit team

Auditors can Approve / Not Approve them after viewing all the details

Video KYC System will pass all the data using a Messaging Queue Service to RE system

RM / Agent Assisted

- Step I RM calls the customer on phone using a regular phone call
- Step II RM tells the customer to open the banks website (kyc.MyBank.com)
- Step III Customer fills up the product form and does eKYC
- Step IV Customer reaches the last page with the 'Start VKYC' button
- Step V RM asks customer to enter his / her Employee Number on the page
- Step VI Once customer clicks on 'Start VKYC' customer gets connected to the RM
- Step VII RM initiates the Video Call and completes the VKYC

Thank you for filling up all the required details.

Now we need to complete your Video KYC

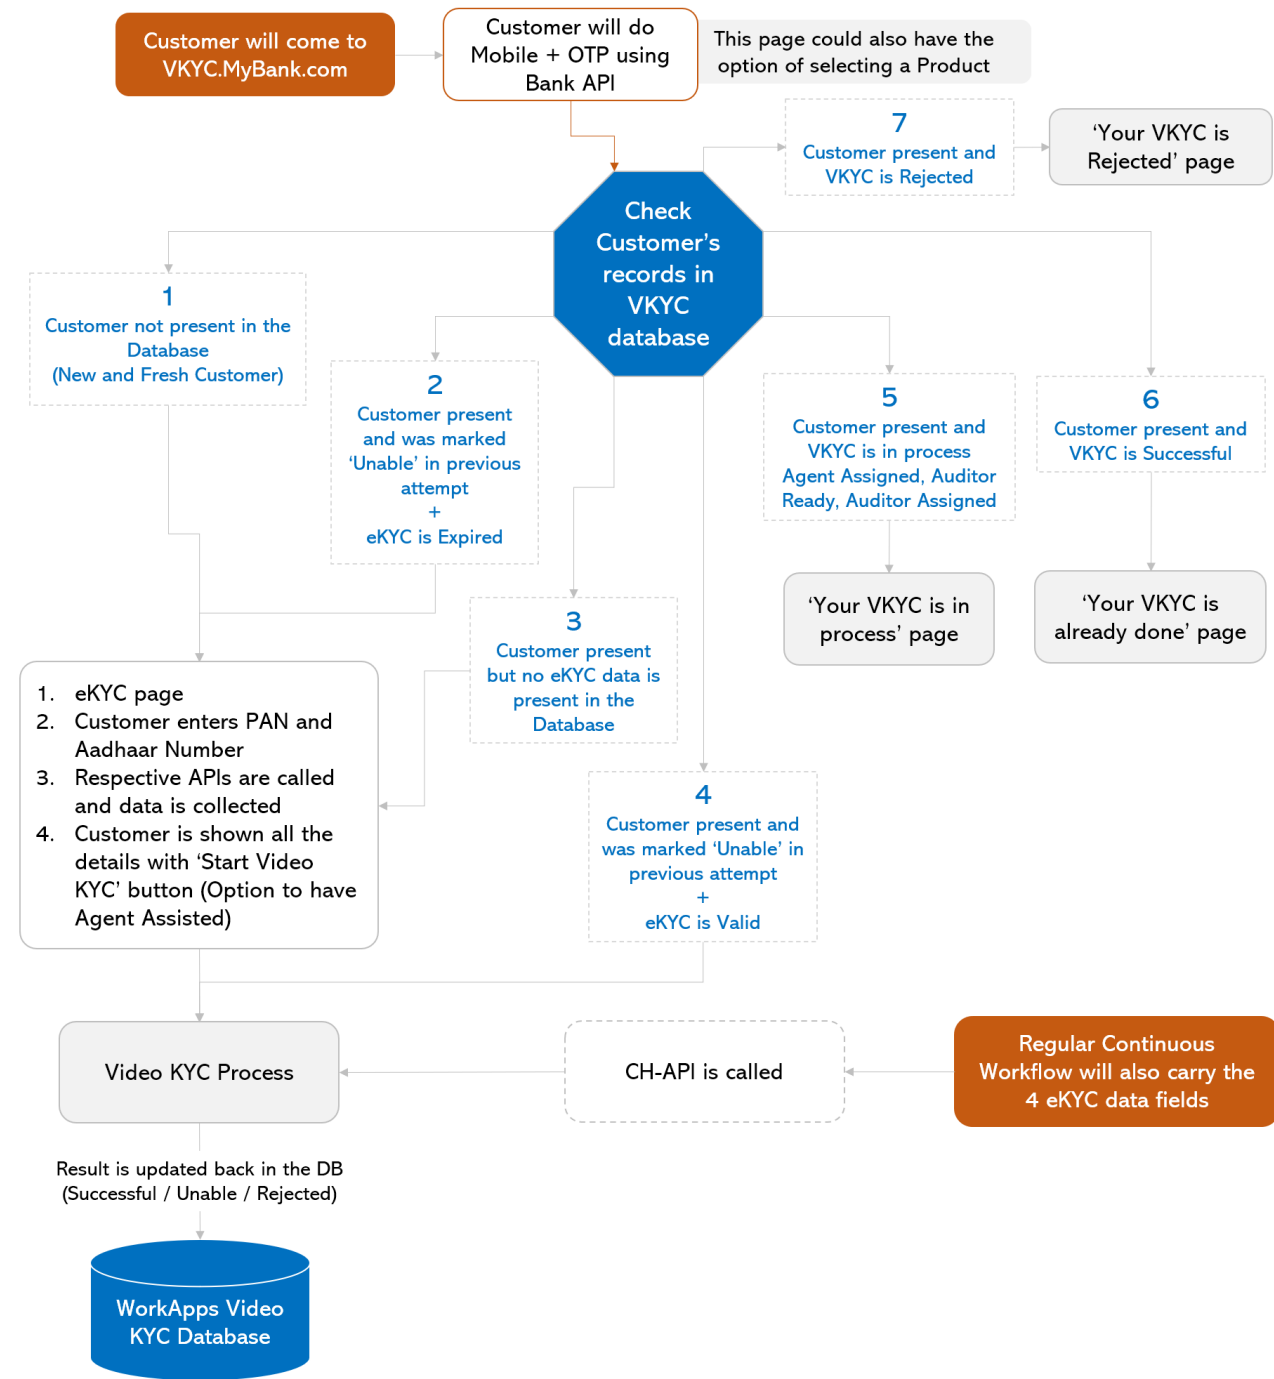

Please enter the employee number of the RM you are connected with to proceed further

Employee Number

Start Video KYC

eKYC + Independent Journey

- OTP and Offline eKYC feature
- Using an independent weblink and no integration
- Five different customer journeys
- Covers all customer scenarios
- Repeat customers who failed the first time

Other important modules

API to pass Customers from Onboarding system to Video KYC system

Customer Queue Management and Wait Time Calculation

LDAP Login for Agents

Three types of calls – One way, Two way and No Agent Camera

Multi video call compatibility

Watermark on images

Bandwidth Meter

Agent dispositions to capture result

Customer Redirection basis VKYC closure

KYC Bank

Single VKYC page for each Customer

Live Call Monitor

Agent productivity monitor and report

Auditor productivity monitor and report

Master KYC Report

User Journey and Event Map

Add your own Google Tag Manager

APIs to sync status to other systems

APIs to sync documents to other systems

Flag to set Priority to customers

Flag to choose preferred language for the customer

RBI Inspector Role

Use Video KYC for other Products

Customize the workflow for other Products like Current Accounts, Credit Cards, Personal Loans, NRI Accounts etc

Customer Validation

Choose any Customer Validation process before the VKYC starts

Customer Data API

Choose what customer data is to be sent from Onboarding system to the Agent

Document Collection

Choose what documents need to be collected from the customer

Document Verification

Step in the workflow to verify or validate information against a document collected

Additional Checks

Step in the workflow for additional checks for verifying non-KYC related fields

Data Handover

Add your own APIs to pass VKYC information to any other system

Rule Engine

Configure your own Rule Engine for marking a KYC as Successful or not

Complete your Video KYC to upgrade Digital Experience

For an awesome Video KYC experience we recommend you to follow below instructions.

Instructions:

1. Ensure stable and uninterrupted network connectivity
2. Be ready with your original PAN card
3. Be ready with pen and blank white paper for signature
4. Ensure your location, camera and microphone settings are enabled
5. Be in lighted up place to ensure clear visibility

Benefits:

1. Instant & Contactless
2. No physical visit required at Branch
3. Takes less than 5 mins

Note: During Video KYC process, videos will be recorded and snapshots will be taken

PROCEED

If you do not wish to proceed or have not been able to complete your video KYC, our official will get in

Instructions Page

All our Customer Service Executives are occupied in serving other customers for Video KYC.

We will send our official to get in touch with you and complete your physical biometric verification.

When all Agents are busy, and the Wait Time is beyond Permissible Limit

Searching for Agent...

Please DO NOT press the BACK button, or move away from this browser. Your session might get disconnected or restarted.

When all Agents are busy, and the Wait Time is within Permissible Limit

All our Agents are busy right
now.

Your approx. wait time is

04 mins : 55 secs

Please **DO NOT** press the **BACK**
button, or move away from this
browser. Your session might get
disconnected or restarted.

When the Customer is added to
the Queue and a wait time is
allocated to the user

Our agent, Prasanta Kundu, is
getting ready to start your Video
KYC, please give us a few seconds.

When the Agent is selected, and
the Agent is getting ready to
start the process

Prasanta Kundu

 Available

Send a message

When the Customer is
connected to the Agent on Chat

When Agent initiates a call with the Customer and Customer has to accept it

When Agent and Customer are connected over the video call

When the bandwidth is low and the system tries to Reconnect the call
